**SANS 1475-2:2010**

Edition 4.1

## **SOUTH AFRICAN NATIONAL STANDARD**

### **The production of reconditioned fire-fighting equipment**

### **Part 2: Fire hose reels and above-ground hydrants**

Amdt 1

## **SANS 1475-2:2010**

Edition 4.1

### **Table of changes**

<b>Change No.</b>	<b>Date</b>	<b>Scope</b>
Amdt 1	2010	Amended to change the title, to add requirements to the clause on records kept by the reconditioning organization and to renumber a subclause accordingly.

### **Foreword**

This South African standard was approved by National Committee SABS SC 21A, *Fire safety – Fire-fighting equipment*, in accordance with procedures of the SABS Standards Division, in compliance with annex 3 of the WTO/TBT agreement.

This document was published in June 2010.

This document supersedes SANS 1475-2:2008 (edition 4).

A vertical line in the margin shows where the text has been technically modified by amendment No. 1.

Annex B forms an integral part of this document. Annexes A and C are for information only.

## **The production of reconditioned fire-fighting equipment**

### **Part 2:**

### **Fire hose reels and above-ground hydrants**

Amdt 1 |

## **1 Scope**

This part of SANS 1475 specifies the procedures that apply to the effective reconditioning of fire hose reels and above-ground fire hydrants. It does not cover the replacement or installation of hose reels and above-ground hydrants.

## **2 Normative references**

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies. Information on currently valid national and international standards can be obtained from the SABS Standards Division.

SANS 10105-2, *The use and control of fire-fighting equipment – Part 2: Fire hose reels and above-ground hydrants*.

## **3 Definitions**

For the purposes of this document, the following definitions apply.

### **3.1**

#### **acceptable**

acceptable to the authority administering this standard, or to the parties concluding the purchase contract, as relevant

### **3.2**

#### **maintenance**

service

combination of all technical and administrative activities including supervisory actions, intended to retain a fire hose reel or above-ground hydrant in, or restore it to, a state of full and effective operational readiness

### **3.3**

#### **mobile workshop**

service vehicle intended to operate away from a permanent workshop for periods in excess of one week
